iii. Selfie

Any identity information you provide outside of your name won't be shared with any Hosts or guests on Airbnb and will be handled according to the Airbnb Privacy policy.

20. I'm having issues verifying my identity on Airbnb, what can I do?

- a. If you are having issues completing your identity verification, here are some tips and recommendations that could help:
 - a) Check your messages: You may have been sent additional information via text, email or phone.
 - b) Use your first and legal last name: Make sure the legal name you provide matches that in public records or on your government ID
 - c) Grant Camera permission: The Airbnb app or your browser may need permission to access your camera. You can typically find instructions on how to provide these permissions to Airbnb by checking your browser or app settings. If you update these permissions and it's still not working, try refreshing our app or web page.
 - d) Take a picture of yourself in the moment: If you're asked to take a selfie, it must be taken of you at the moment of submission and not be a previous photo of you. Don't worry - this won't show on your profile to other users on Airbnb.
 - e) Use an original ID that's not expired: Make sure the ID you provide is unexpired and an original - that means it's not a photocopy, PDF or other digital copy. If the ID has two sides, such as driving license or national identity card, submit photos of both the front and the back.
